3 products available

We are using here **2 sets** of Nektar Sticks FOM and FOM+

Each set of Nektar Sticks has :

- one **ring** on **each extremity**
- One **hook** is attached to one extremity of the stick

USE OF THE NEW NEKTAR STICKS

To connect 2 sets of Nektar Sticks :

Open the ring where the hook is bound

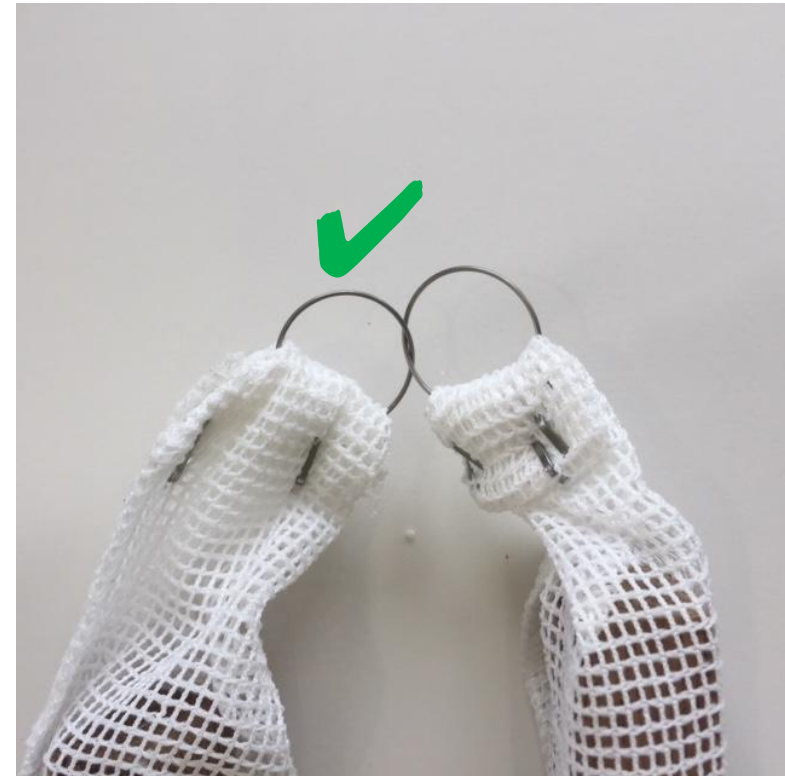

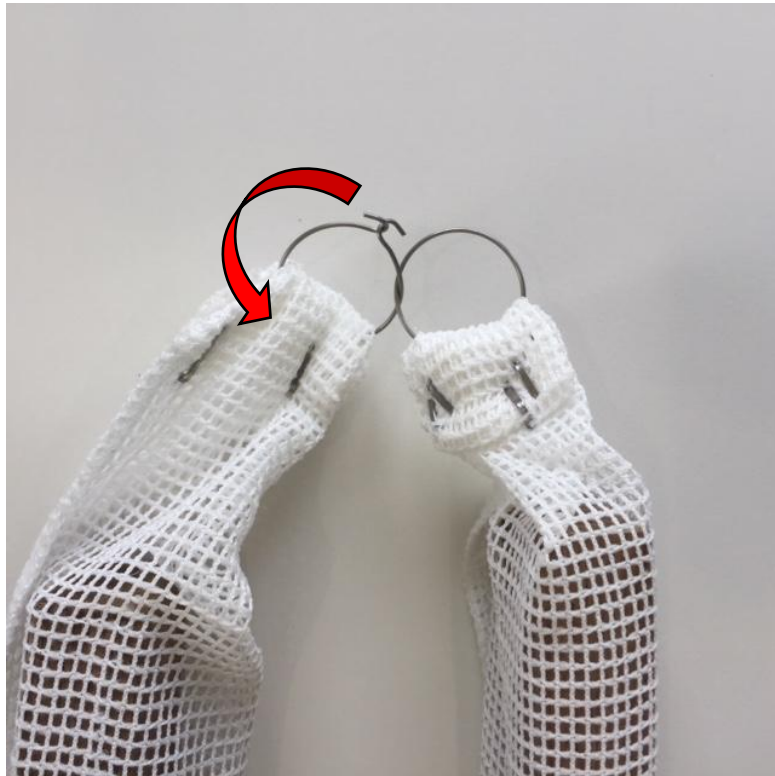

Remove the hook

Connect this ring to the one from the other set of Nektar Sticks and **fasten it**

USE OF THE NEW NEKTAR STICKS

In order to make the connection safe between the sets of Nektar Sticks, **make the ring rotate in order to block the fastener into the mesh bag.**

USE OF THE NEW NEKTAR STICKS

The chain of Nektar sticks is **ready to use**.

We advice you to attach the hook on the side of the silicone bung in order to secure the binding once the barrel is closed.
